SPECIAL ORDERS AND CUSTOM ORDERS

Ovation makes a wide selection of models that are readily available through Authorized Ovation Dealers. To offer players an even greater choice of features and finishes, we have created a group of "Special Order" models that are not part of our regular production. We can also make custom instruments that do not appear in any catalog or price list.

Here is the difference between "Special" and "Custom" orders:

Special Orders

These instruments are listed in the Ovation Retail Price List under the Special Orders heading. These models can be delivered within three months from receipt of your order from an Authorized Ovation Dealer at no additional charge.

Left-Hand Models

Left-handed models are available by special order for most Ovation USA models at no additional charge. All mid-depth cutaway models are available, however preamp options are limited to OP30 and OP40.

Custom Orders

Custom instruments in special finishes and with options such as preamp changes, etc. can be ordered with some limitations. Custom instruments require a minimum of six months to build. Contact your Authorized Ovation Dealer for complete information and to obtain a price quote.
